

Mr. EskandariPour brings over 12 years of extreme programming and project management expertise from varied industries. He is instrumental for project management and client relationship at ESCS.

In his most recent capacity at Charles Schwab he was responsible for heading the R&D lab building prototypes of wireless through web enabled phones, 3D modeling of financial data, certificates and finger print readers, electronic and digital signatures using smart pads and PDAs. He has also consolidated multiple CRM systems into a single web enabled CRM system. He was also instrumental in building and managing to rebuild Schwab's workflow system and Document Management system using FileNet Panagon.

He has strong capabilities in the following programming language environments; Java, Frameworks, XML, TopLink, Swing, C/C++, JSP, JHTML, HTML, Weblogic, Oracle, Visual Basic, PowerBuilder, TIBCO RV, TIBCO InCOnvert, FileNet, IBM MQ.

His strength in project management and leading to fruition his projects on time and on budget will be one of the paragons that ESCS will provide the client base under his leadership and hand on involvement.
